18th October 2010

To whom it may concern,

Matthew James worked with Winunited Ltd for approximately a year, from 17th August 2009 until 20th September 2010 as Creative Manager.

During his employment, Matthew was responsible for creating and delivering all on-line and offline media conceptualizing, under the supervision of the Head of Marketing. Areas of focus included on-line banners, landing pages, e-mail shots as well as corporate e-mail templates and business cards. He was also in charge of all web design changes to our site.

Matthew proved to be friendly, positive, discreet and helpful, whilst integrating very well with the rest of the Marketing team. His ability to get work done and his hands-on approach made him a true team player.

Matthew's absence will be felt within the team and I wish him every success in his chosen career as he will be a great asset.

Kind Regards,

William Lytle
Head of Marketing
